The world of fashion is always changing, but the only thing remains constant in it – the desire to buy clothes of good quality that is comfortable and safe. It is possible to reach this goal, if the production of fabric is based on natural fibers. Soft, warm and convenient clothes that is made from wool can satisfy both the most demanding dandies and the staunch supporters of conservatism. The woolen fabric has many advantages that are unique. They possess high heat-reflecting qualities in winter, don't conduct heat in summer, have the ability to absorb and exhale moisture quickly and are characterized by high elasticity, low ability to be crumpled, good stability of shape.

The fabric produced by OJSC «Kamvol» was highly evaluated at the republican and international exhibitions. The factory was rewarded with diploma for organization of production of the competitive products and high consumer quality goods, medal of «Laureate VVC» (Moscow), diploma and medals of "The Best Fabric of the Year".

The high level of design, development and production of fabric at Open Joint-Stock Company "Kamvol" is guaranteed by the certificate of meeting the requirements of standard - STB ISO 9001-2009.
