# CORPORATE MISSION AND VALUES

## Corporate mission and values:

Our mission is to create sustainable packaging solution for every customer, knowing exactly how to do it better and more effective than anyone on the market.

## In implementing our business strategy, the company relies on its inherent values shared by the whole team:

- **Client:** we value our customers and we work to satisfy their needs for quality packaging
- **Staff:** we create new opportunities for career development and growth
- **Team:** we are the team of like-minded people, united for a common cause of success
- **Realism:** we clearly understand our goals and its achievement means.

# PRODUCTION CAPACITIES OF GOTEK'S CORRUGATED DIVISION

Manufacturing fields of **GOTEK's Corrugated Division** have modern equipment of leading European producers:

- **BHS** (corrugator for the production of 3 and 5-face corrugated board, **4 pieces**)
- **Bobst** ( plane cutting line, **SPO, 6 pieces**)
- **Martin** (American box production line, **Midline – 4 pieces, Miniline 2 pieces**, rotary cutting line **DRO 3 pieces.**)
- **MWU** (American box production line) – **2 pieces**

Printing machines **Caves PRT 1700 – 2 pieces.** Our equipment can produce packaging solutions of any complexity and configuration with the application of flexographic printing up to 4 colors.

- GOTEK sets high priority on improving the quality of products.
- In 2003, three year-long ISO 9001:9002 has been certified the first time.
- The second three year-long certification was conducted in 2006.
- In 2009-2010, according to the conducted survey among consumers about the importance to have the certificate ISO 9001:9002, found out the more necessary for consumers to have actual operation of the QMS rather than to have the certificate.
- So, the company management decided to suspend the regular certification.
- Nevertheless, the requirements of the Standard ISO 9001:9002 implemented in the full size, as an evidenced by the results of internal and consumer's audits.
- In addition the **JSC GOTEK-CENTER** was certified according to BRC. This company confirms compliance with the standard every year, the last one was in 2012 of May.

**THANK YOU FOR YOUR TIME!**
